Various saunas, steam baths, Kneipp pools, relaxation rooms and much more – for moments of relaxation and renewed energy.

Our new, light-filled exercise room offers the ideal setting for mindful movement and soothing relaxation. Through Yoga, Pilates and mindfulness sessions, body and mind find a new sense of balance. For endurance and strength training, you also have access to the panoramic fitness studio, equipped with modern machinery – offering stunning views and plenty of space to recharge your batteries.

Six stylish treatment rooms with views of the surrounding countryside invite you to enjoy soothing moments of peace and regeneration. Enjoy a wide range of massages, beauty treatments and regenerating body treatments – for renewed energy and holistic well-being.

#### **NEW – ALPINE REFRESH**

An exclusive experience inspired by the power of nature. Heat opens the pores and prepares the skin for an invigorating exfoliation. After applying the exfoliant, warm steam deepens the effect, optionally with invigorating Alpine salt. A soothing spa experience for the body and senses, which can be rounded off with a relaxing massage (we offer it with or without massage). Alone or as a special break for two.

Our exercise programme from Monday to Friday makes summer in Hintertux active and varied. Guided hikes and one e-bike tour per week lead to the most beautiful places in the Tux Alps – suitable for beginners and experienced mountain lovers.
